DIRECT VENT GAS FIREPLACES

— **HEAT & GLO** —

TRADITIONAL STYLE
AT ITS BEST

TRUE

The best fire. The cleanest look. The largest view. It is TRUE.
The most authentic masonry appearance available is here.

BIG IMPACT

The largest viewing areas in their class command attention. Crisp edges and tight finishing completes the clean look.

BOLD FIRES

Vivid flames rise to life through an illuminated ember bed with LED accent lighting. Enjoy the ambiance with or without the fire.

DISTINCTIVE DETAILS

For the most authentic appearance, we turned up the detail. High definition logs. Glowing embers. Brick interior panels. Add a touch of modern with reflective black glass interior panels. Witness it all through virtually invisible, anti-reflective glass and control it with IntelliFire™ Touch—the most intuitive control system that is simple, smart and safe.

CONTROL OPTIONS

Have complete control over your fire. Controls listed are tested and approved for recommended use with your TRUE.

INTELLIFIRE TOUCH RC400 TOUCHSCREEN REMOTE CONTROL

Included standard with the TRUE, a large LCD screen and simple navigation provide easy operation. Feel confident knowing alerts and notifications will appear when needed. The RC400 acts as a thermostat and can be used as a remote, or docked on the wall.

Features: on/off, flame height adjustment, fan speed, lights adjustment, thermostat mode, room temperature readout, child lock, timer mode, automatic battery backup, cold climate mode, power vent, wall docking station (Fan, lights and power vent are dependent on your fireplace).

INTELLIFIRE TOUCH RC150 WIRELESS WALL SWITCH

Push the switch for fire and ambiance, while audible feedback confirms commands and ensures safe functioning. This simple switch is designed for wall placement.

Features: on/off, battery strength indicator, automatic battery backup, cold climate mode

MANTEL SHELVES

A shelf mantel is the perfect accent to a fireplace and a place to showcase some of your most cherished mementos. Available in 48, 59 or 72-inch lengths in a variety of finish options.

FILLMORE

TRUE TECHNOLOGIES

INTELLIFIRE TOUCH IGNITION SYSTEM

IntelliFire Touch is the most advanced and intuitive IntelliFire system, making operating your fireplace simple, smart and safe. Select the wireless wall switch or touchscreen remote control for the solution that fits your life.

DIRECT VENT TECHNOLOGY

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

ANTI-REFLECTIVE GLASS

A cleaner, more distinct view of the fire. A glare reduction of 89% over standard ceramic glass, making it virtually invisible. And an experience so real, friends may just try and add a log to the fire.

HEAT MANAGEMENT TECHNOLOGY

Bring the warmth from your fireplace to the rest of your home, up to 20 feet away. Heat management technology can redirect up to 50% of the heat to another area, also reducing wall temperatures above the fireplace. Choose between a **Heat-Zone™ kit** to transfer heat where you want it, or utilizing your existing furnace ductwork with a **Heat Duct kit**.

Draw heat from your fireplace and direct it outside, up to 25 feet away. When an **Heat Out kit** is run continuously on high, it can redirect up to 40% of the heat off the fireplace, also reducing wall temperatures above the fireplace.

POWER VENT TECHNOLOGY

No matter where you want to install your gas fireplace, power venting technology makes it possible. This extremely flexible, versatile technology is small enough to effectively navigate your home to an effective vent location, which in turn provides you with optimal performance, every time.

LED ACCENT LIGHTING

Superior performance and extended efficiency. This technology provides high-contrast, brilliant lighting to accentuate the flames. Can be used as mood lighting, with or without the flames.

LED EMBER BED

Add an extra layer of dimension and light to your fire. Realistic illuminated LED embers let you enjoy the ambiance, with or without the fire.

FADE-RESISTANT BLACK GLASS PANELS

A clean modern look that reflects the fire and never gets dull. Just like this black glass interior. It's hot. And looks that way, too. For the life of your fireplace.

*Front dimensions include non-combustible material which overlaps framing

Dimensions are in inches and millimeters. Product information is not complete and is subject to change without notice. Product installation must adhere strictly to instructions shipped with product. We recommend measuring individual units at installation. Assumes the use of 1/2" sheetrock. NOTE: Combustible material should not cover the face. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo® reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Actual product appearance, including flame, may differ from product images.

U.S. EFFICIENCIES

Steady State - Since most homeowners use their fireplaces for an extended time while they are in the room, Steady State measures how efficiently your fireplace converts fuel to heat once it is warmed up and running in a "steady state".

AFUE - AFUE rating is more typically used with appliances, like your furnace, that continually cycle on and off to maintain a constant temperature.

RATING	TRUE-36	TRUE-42	TRUE-50
STEADY STATE	76.2% (NG), 76.2% (LP)	77.2% (NG), 77.2% (LP)	68.9% (NG), 67.3% (LP)
AFUE	51.9% (NG), 55.3% (LP)	67.0% (NG), 67.6% (LP)	66.8% (NG), 65.2% (LP)

CANADA EFFICIENCIES

EnerGuide (CSA P.4.1-15) - EnerGuide is a rating used in Canada to measure annual fireplace efficiency.

RATING	TRUE-36	TRUE-42	TRUE-50
ENERGUIDE (CSA P.4.1-15)	57.6% (NG), 57.1% (LP)	67.0% (NG), 68.4% (LP)	69.1% (NG), 66.5% (LP)
